I am an Informatics undergraduate at Universitas Negeri Surabaya. I bring strong motivation and deep curiosity about technology. I work with core web development skills. You can find me using HTML, CSS, and JavaScript as the foundation of every project. I use Bootstrap and Tailwind CSS to build clean interfaces. I manage data with MySQL, PostgreSQL, and MongoDB. I have experience in web design, web development, and UI UX design. I enjoy learning new tools and improving my technical abilities in every project.
